Topical Collection

Graduate Employment and Sustainability in a Global and Changing Labour Market: Challenges and Opportunities for Higher Education

Message from the Collection Editor

This Special Issue aims to address the relationships between higher education institutions and the employability/employment of graduates from around the world, including in developing countries, where higher education is presently in significant expansion. We invite authors to contribute to this Issue by submitting empirical or theoretical research triggering a broader reflection on the integration of sustainability, in its diverse definitions and conceptualizations, into the (higher) education of (future) workers from the natural sciences and social sciences. Contributions around the following themes are particularly welcomed:

- The changing competencies required in order to respond to the needs of a changing labour market and/or societal needs informing future or ongoing work, and education programmes/strategies
- Development of effective partnerships, including international cooperation, between higher education and employment institutions
- Design, implementation and evaluation of innovative (higher) education and training programmes integrating work-related skills and non-cognitive transferable skills

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits
