

## Special Issue

# The Environmental and Socioeconomic Impacts of Energy Policies

### Message from the Guest Editors

This Special Issue on the Environmental and Socioeconomic Impacts of Energy Policies is a scientific and technical platform that publishes original and multidisciplinary research results on various current and future aspects of energy. The Special Issue publishes original contributions that include, among others:

- Energy policy effect evaluation;
- Energy policy prediction and optimization;
- Energy policy decision support system;
- Policy effects on energy efficiency;
- Policy effects on energy transformation and substitution;
- Policy effects on energy consumption;
- Policy effects on energy poverty;
- Policy effects on energy security;
- Policy effects on sustainability;
- Policy effects on greenhouse gas emission;
- Energy policy effects on national and regional economy;
- Policy effects on enterprises' green innovation and competitiveness.

The articles covered by the Special Issue must cover at least one of the above research fields. They must identify or point out innovative aspects of the studied systems, technologies, methodologies, or analytical techniques.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
