

Special Issue

Energy Economics in Sustainability

Message from the Guest Editors

The aim of this Special Issue is to identify challenges and solutions for energy economics and sustainability. It will cover papers on complex topics dealing with:

- The research, development, and implementation of energy economics and sustainability, including energy systems and environmental policy;
- The development of regionally adapted sustainable energy and economic systems and discourse on how to transform urban settlements into smart cities;
- Systemic approaches to link new technologies with energy technologies that meet the environmental criteria for sustainable development;
- Techniques to improve the environmental, economic, and sustainable performance of energy systems;
- The analysis, operation, management, security, stability, and control of sustainable energy systems;
- Sustainable energy economics and power markets;
- The complex interactions between energy, sustainable development, and climate change.

Contributions are welcomed covering all the major areas of energy and environmental economics and sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
