

Special Issue

Energy Economics and Energy Policy towards Sustainability

Message from the Guest Editors

Dear Colleagues: Energy research will help to solve the thorny problem of climate change and economic turmoil caused by energy shortages so as to promote the sustainable development of the economy and the natural environment. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Energy policy and sustainable development;
- Energy consumption/energy structure and sustainable development;
- Green investment and energy green transformation;
- Energy prices and sustainability;
- Environmental effect assessment of energy policy;
- Renewable energy technology and sustainable development;
- Other topics related to energy economics and sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
