

Special Issue

Toward Sustainability: A Focus on Innovative Renewable Energy Harvesting Systems

Message from the Guest Editors

The Special Issue will also cover topics related to energy policy, energy systems, compact design, relation to power grid, renewable energy standards, public awareness, and promotional strategies for large adaption. There are many technologies that are not implemented since people are not aware of their development. Additionally, the risk of new technology is blocking the progression of a wider adaption. Discussions on how technology can be transferred to a regular person are of interest.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
