

Special Issue

Advanced Control Techniques for Renewable Energy Systems and Power Electronics

Message from the Guest Editor

The Special Issue will present cutting-edge research results in these emerging fields as a basis for reliable and efficient operation of renewable energy systems and power electronics circuits. The proposed control techniques should be extensively validated by simulation and/or experimental results.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
