

## Special Issue

# Emergent Approaches to Prospective Thinking for Sustainable Development in Engineering Education

### Message from the Guest Editors

The primary focus of this Special Issue is on education in engineering for sustainable development using a forward outlook-based approach. We expect proposals in the area of engineering education that integrate a prospective view based on personal, professional and social visions of the future. This proposition would identify the potential for the integration of an outlook for the future that can guide and shape the meaning of professional work as well as the impact of professional action in the development of future sustainable societies.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,  
Columbus, OH 43210, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
