

Special Issue

Engaging Students' Voices in Partnership for the Rhizomatic Development of Sustainability in Higher Education

Message from the Guest Editor

Universities are faced with the tremendous challenge of promoting a culture of sustainability, while simultaneously grappling with the ongoing development of a more inclusive and active pedagogy for the twenty-first-century curriculum in which students are seen as partners in learning. This Special Issue has a focus on innovations in higher education pedagogy and disruptive processes that might help education for sustainability to break free from the hegemony of the neoliberal university, and move away from the danger that education for sustainability might be subverted as 'education for consumerism and unbridled economic growth'. Submitted papers may address related issues that focus on education for sustainability with an emphasis on student engagement/partnership, and present empirical research, reviews, case studies, or conceptual pieces that consider how sustainability fits with a transformative view of university education, and challenge neoliberal norms. Authors should explicitly address the criticism that as an educational community, 'we lack creativity. We lack resistance to the present'.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
