

Special Issue

Ensuring Sustainability towards the 2030 Mission

Message from the Guest Editors

The European Union “Horizon Europe” Framework Program (2021–2027) is aiming to identify and develop 5 ambitious “Missions” of a maximum European impact in research and innovation. These missions are geared towards social challenges, economy, environment, and industrial competitiveness, as fundamental challenges that must be addressed. In this context, it is necessary to analyze the role of organizational engineering as a key factor. Engineering in general, and Industrial Engineering in particular, plays an important role in generating innovation by improving the design, installation, operation, management, control, and improvement of industrial systems while providing services to companies and other organizations. This Special Issue is focused on the role of engineers in promoting models of sustainable development. It also aims to present and review emerging industrial engineering methods, approaches, and technologies which address some of the most recent topics in the sector.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
