Special Issue

Entrepreneurial Education Strengthening Resilience, Societal Change and Sustainability

Message from the Guest Editors

In this Special Issue, we provide an overview of how entrepreneurial education and training can strengthen the activities that promote social resilience in higher education institutions/systems. We are also looking for new openings on how entrepreneurial activity can create a basis for strengthening societies' capacity to respond better to current and emerging challenges. Furthermore, we aim to raise a discussion on entrepreneurial education as a driver of societal change and sustainability. In particular, the importance of entrepreneurial and entrepreneurship education and training is emphasised: Traditional academic education needs to be critically re-assessed to learn what kind of competencies we need to promote to foster the resilience of societies. On the other hand, we may look at how sustainable development of entrepreneurial education promotes resilience and societal change.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
