Advances in Entrepreneurship and Innovation for Sustainable Management

Message from the Guest Editors

Although the previous literature has advanced our knowledge and understanding of the important roles of sustainable entrepreneurship and sustainable innovation, a number of studies suggest the need for further work in this area (see for example, Anand et al., 2021; Haldar, 2019). Therefore, this call for papers aims to provide more knowledge and understanding about sustainable entrepreneurship and sustainable innovation both in developed and developing economies. Specifically, we call for papers that provide help in understanding the foundations, processes and outcomes of adopting sustainable entrepreneurship, innovation approaches and management practices in both small and large-sized organisations, along with how this affects the well-being and economic prosperity of a society in the short-run and in the long-run.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
