

## Special Issue

# Pro-environmental Behaviors and Green Practices

### Message from the Guest Editors

Scientific contributions will be accepted within the following six priority areas for promoting pro-environmental behaviors and green practices:

- Effective strategies or practices for promoting scientific research, policy, media, and interpersonal communication concerning climate change.
- Effective strategies or practices for leveraging social norms to facilitate collective efforts toward adaption and mitigation.
- Effective strategies or practices for leveraging motivation to support sustainable development goals.
- Application of modern technologies (such as information and communication technology, big data analysis, artificial intelligence, and robotics technology) for environmental and green education.
- Use of modern technologies for enhancing engagement in sustainability at various levels (e.g., the global, state, local, organizational, societal, and individual levels).
- Innovative or interdisciplinary approaches to promote pro-environmental behaviours and green practices.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
