

## Special Issue

# Environmental Economics and Sustainability Policy

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Environmental modeling with sustainability policy simulation;
- Sustainable development path with multi-objective optimization strategies;
- Integrated environmental assessment for sustainability and optimality;
- Environmental assessment, protection and livelihood improvement;
- Resources nexus, efficiency and carrying capacity toward Sustainable Development Goals (SDGs);
- Regional industrial development with improvement in Circular Economy;
- Coupling mechanism of biomass energy utilization with optimal allocation;
- Green and sustainable development in areas with a fragile ecological environment, such as the Tibetan Plateau;
- Protection, sustainability and transformation of ecological functional zones.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
