# **Special Issue**

# Monitoring and Control of Environmental Hazards

## Message from the Guest Editors

We would like to invite you to contribute to the Special Issue entitled "Monitoring and Control of Environmental Hazards", which will be dedicated to the ecological and environmental field. Environmental hazards, such as persistent organic pollutants (POPs), volatile organic pollutants (VOCs), and toxic metals, have been widely spread in the environment, causing adverse human health effects. However, their occurrence, fate, distribution, and health risks are still not clear enough, and control technologies and measurements need to be urgently developed. The proposed Special Issue aims to publish submissions covering studies on environmental hazards. This may involve the involvement of source emission and apportionment, environmental behavior and simulation, environmental health risk assessment. catalytic disposal technology, and remediation and sustainable management. In this way, this Special Issue of Sustainability aims to bring together multidisciplinary knowledge and cross-sectoral approaches for the valuable contribution of environmental hazards control.

# **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

#### Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

#### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### **Journal Rank:**

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
