

## Special Issue

# Executive Gender Diversity and Corporate Social Responsibility

### Message from the Guest Editor

This Special Issue of *Sustainability* intends to collect an attractive set of papers on the developing topic of executive gender diversity. In particular, the selected papers should collectively contribute to demonstrate (1) whether women executives have a favorable effect on a firm's environmental and social performance; (2) which conditions are needed for women to have a stronger effect; (3) which situations could impede their effectiveness; (4) the role of national culture in facilitating the implication of women executives; (5) whether specific CSR activities are favored by women executives; (5) whether their role has been strengthening as time has passed; etc. The editor of the Special Issue welcomes all methodological approaches provided they are justified and aptly implemented. For instance, contributors may use case studies; qualitative analyses; single country studies regarding developed or emerging economies; as well as multicountry studies.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
