

Special Issue

Financing Instruments for Climate and Disaster Risk Resilience: The Role of the Private Sector

Message from the Guest Editors

This Special Issue aims to fill the void in the literature by examining the key barriers of current investment regimes in climate and disaster risk-related activities.

We also aim to examine the policy regimes required to stimulate private sector investment in implementing innovative climate and disaster financing. In this Special Issue, original research articles, case studies, and reviews are welcome. Research areas may include (but are not limited to) the following: Climate and disaster risk financing facilities; Engaging the private sector; Barriers of climate and disaster risk financing; Emerging markets; Tools to support private sector engagement; Policy and financial support mechanisms; Case studies of concessional financing; External risk finance (grants, loans, and other external finance); Public-private partnerships; Financing challenges for viable and environmentally sustainable agriculture; Green bond and sovereign risk insurance; Ex-ante and Ex-post financing instruments; Enabling environment for risk financing; Risk transfer, tax incentives/ subsidies; Capital market solutions, etc. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
