# **Special Issue**

# Sustainable Food Consumption and Supply Chains

# Message from the Guest Editors

This Special Issue seeks research studies that provide qualitative and quantitative evidence on managerial and technological interventions that propel sustainability performance across end-to-end food supply chains. Indicative interventions could refer to natural resources stewardship in upstream operations, to optimal inventory management and zero-waste practices during food processing. Any sector relevant to food will be considered. Submitted contributions are not limited to:

- Theoretical investigations on consumer-centric food supply chains, preferably with a sustainability outlook.
- Empirical evidence of sustainable food supply chain operations from stakeholders who aim to promote innovative managerial, practical and technology interventions.
- Barriers and drivers to the adoption of sustainability practices in food supply networks.
- Governance interventions on the sustainable fulfilment of the rising consumer needs for safe, healthy, and nutritional food supplies.
- Policy-making paradigms and emerging debates on sustainable food networks.
- Data-driven digital implementations that ensure food transparency and traceability for sustainability.

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

#### Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

## **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
