

Special Issue

Innovations for Sustainable Food Processing and Supply Chain Management

Message from the Guest Editors

The key question is: What insights can research provide in this context? Accordingly, this Special Issue will consider submissions of research papers involving, but not limiting to:

- Food innovations for sustainability and health;
- Sustainable food supply chain technologies and/or management;
- The future of food and climate change: innovative green technology in food processing and packaging systems;
- Farm-to-fork food quality and safety: issues, challenges and systemic approaches.

We invite submissions by scholars from all academic disciplines to shed light on these broad research areas.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
