

Special Issue

Ecological Footprint Indicator

Message from the Guest Editor

The Ecological Footprint has emerged as an aggregated indicator of human appropriation of biocapacity. There now exists numerous policy applications from the approach. This special edition will explore both the successful applications of the Ecological Footprint along with a recognition of its limitations to policy assessment. Additionally, alternative approaches to the Ecological Footprint are welcome.

We invite you to contribute to this special issue by submitting comprehensive review or research articles.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
