Special Issue

Smart and Connected Freight for Sustainable Cities

Message from the Guest Editor

This Special Issue solicits contributions on topics that aim to support and update our understanding of how various technologies, purposes, and entities in a freight system serve society's sustainability efforts. The following topics are some examples of interest for this Special Issue edition of this journal:

- Theoretical and empirical studies on freight efficiency and operations;
- Freight system modeling and simulation for sustainability;
- Freight information and communications technologies;
- Freight mobility;
- "Uber Freight";
- Technologies, freight, and emissions;
- Freight policies and market impacts;
- Cyber-physical technologies and sustainability in the trucking industry;
- Urban freight transport and sustainable city logistics;
- Freight transportation performance measures for a sustainable society;
- Electric freight transportation;
- Freight mobility and connectivity to terminals;
- Sustainable urban distribution and logistics;
- Just-in-time and just-in-case deliveries;
- Last-mile freight delivery.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
