Special Issue

Frontiers in Economic Geography

Message from the Guest Editors

This Special Issue is intended to show the recent interdisciplinary development of economic geography and spatial analyses of human behavior, as well as to discuss possible directions for its future development. Economic geography has recently come into collision with numerous topics and conceptual standpoints that lie outside of its traditional areas of focus. We focus on interdisciplinary conceptual connections among the geographical, technological, cultural, economic, psychological, anthropological, sociological, and historical points of view. Topics of special interest are the intersections between economic geography and political economy, information technologies, demography, emotions and affect, the digital world, globalization, and cultural geography. Frontiers in economic geography will complement the existing literature in a useful way, and should contribute new ideas, approaches, orientations, and priorities for an enriching debate on the future of geographical science.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
