

Special Issue

Sustainability of Future Power Systems: Climate Change Impacts, System Reliability, Renewable Energy Technologies and Grid Integration

Message from the Guest Editors

To address these and other challenges, this Special Issue aims to provide a platform for academics, researchers, and engineering professionals to disseminate their research and provide solutions for future power systems. Topics for the Special Issue include, but are not limited to:

- Climate change impacts on power system
- Power system reliability and resiliency
- Cyber-physical security
- Power system stability
- Renewable energy integration
- Resilient microgrids
- Load forecasting
- Electrical vehicles
- Demand side management
- Power system planning and operation

Guest Editors

Dr. Zafar Ali Khan

Dr. Muhammad Imran

Dr. Abdullah Altamimi

Dr. Manuel S. Alvarez-Alvarado

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
