

Special Issue

Green Construction Supply Chain: Sustainable Strategy and Optimization

Message from the Guest Editors

This Special Issue aims to publish original papers and reviews on operation management and sustainable strategy optimization of green construction supply chains in multiple aspects such as procurement, transportation, construction, and operation. This Special Issue provides a new platform for research related to sustainability and sustainable development, which is of great significance for achieving the low-carbon transformation of the global construction industry to maximize resource conservation, environment protection and carbon emissions reduction. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: Sustainable supply chain
Green construction supply chain
Operation management and optimization
Logistics and inventory management in construction
Carbon emission reduction strategy
Low-carbon technology investment
We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
