

## Special Issue

# A Green Economy as a Way for Sustainable Development

### Message from the Guest Editors

This Special Issue of Sustainability involves topics focused on innovative approaches of the green growth and the bioeconomy and circular economy in different sectors on the national and international levels. Studies should focus on specific approaches aimed at promoting sustainable development, the introduction of eco-innovation and recycling from different perspectives. The aim of the Special Issue is to bring about academic, experiential and conceptual improvements in the scientific knowledge focused on fostering economic growth, while guaranteeing that natural resources endure to provide the resources and environmental services on which our well-being relies.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
