

Special Issue

Green Information Technologies Practices and Financial Performance: Emerging Issues

Message from the Guest Editor

The Special Issue is open to methodological and conceptual papers, empirical studies, case study analyses, and systematic literature reviews. The illustrative set of topics includes, but is not limited to, the following:

- Conceptual foundations of GITs and new approaches to their quantitative measurement;
- Critical success factors and key challenges of GIT implementation in the corporate sector;
- Corporate governance solutions facilitating GIT adoption strategies;
- Ways in which GIT can be leveraged in support of environmental sustainability within operating activities;
- Connections between GIT implementation and the financial performance of companies;
- Other tangible economic benefits connected with the practical implementation of GIT.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
