

Special Issue

Quantifying Sustainability and Resilience Benefits of Green Stormwater Infrastructure Systems

Message from the Guest Editor

This Special Issue aims to bring together the latest research and advances in planning, modeling, design, monitoring, assessment, operation, and maintenance of Green stormwater infrastructure (GSI) systems that will enable quantification of GSI sustainability and resilience benefits. Original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Sustainability and resilience indicators for GSI systems
- GSI and climate change
- GSI and water-energy-food nexus
- GSI in coastal areas
- GSI, social equity, and environmental justice
- Watershed-scale effects of GSI
- Life-cycle assessments of GSI
- GSI research needs and prioritization
- GSI performance (water quantity, water quality, and ecosystem services)
- Process-based and data-driven modeling of GSI

For more information, please click on the provided link. Also, feel free to contact me via email for inquiries. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
