

## Special Issue

# Global Health and Sustainable Development

### Message from the Guest Editor

This call for papers for a special issue is a global forum that focus at the cross-road of global health and sustainable development. Ensuring healthy lives and promoting well-being across all walks of life is key to sustainable development. Currently, the world is challenged with one of the biggest public health crisis of the century—COVID-19 is not only causing human physical suffering but also destabilizing the global economy and causing widespread political upheavals. Therefore, any global health action plan needs to be based on development that meets the needs of the present without depleting planetary resources for use by future generation. We therefore welcome articles that address dialogues at the interface of global health and sustainable development. Articles related to areas of Health Economics & Finance, Aging, Covid-19, Health Equity, Digital Health/health Management Information and Global Health, Mental Health, Psychology, Substance Abuse or Addiction. This issue is open, but not limited, to theoretical and empirical papers in Global Health Subject Coverage.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
