

Special Issue

Heavy Metals in Daily Life: Assessment and Treatment

Message from the Guest Editors

As the of the Special Issue “Heavy Metals in Daily Life: Assessment and Treatment” in *Sustainability*, we would like to invite you to contribute an article or review paper focusing on the recent studies related to this topic. The purpose of this Special Issue is to add information on:

- The identification of heavy metals sources in the daily life;
- The reduction or risk of exposure to heavy metals (heavy metals treatment and kinetics of their removal);
- The estimation of the main ways in which toxic elements enter the human body (including the fate, mechanisms, and management of heavy metals);
- The determination of the levels of intake of heavy metals in human life, including, e.g., the diet or the cosmetics use in order to calculate and estimate the risk to human health (the risk assessment methods depending on the route of exposure);
- A better understanding of the transfer of metals in food chain and their accumulation in food web components.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
