

## Special Issue

# Housing Inequality: Causes and Potential Solutions

### Message from the Guest Editors

This Special Issue intends to provide a comparative state-of-the-art overview of research on housing inequality. For this purpose, we welcome papers that deal with (elements of) the following two research questions.

- How does the interplay between international, national, and local actors and processes result in housing inequality, empirically but also theoretically?
- Which new housing solutions (government policies, social innovations, civil society initiatives) can (potentially) combat the different forms of housing inequality, thereby resulting in housing systems that are more affordable, socially sustainable, and inclusive? What is the rationale underlying these solutions? How have they been developed? To what extent are these solutions transferable to other contexts?

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
