

## Special Issue

# Hydrogen as a Sustainable Energy: Current Status and Future Prospect

### Message from the Guest Editors

This Special Issue focuses on the status and the future prospect of hydrogen as a sustainable energy in the fields from the hydrogen production to the applications, from the technologies to the economy and policies. The relationships revealed would help to shape integrated sustainable planning and development strategies of hydrogen energy. Topics include but are not limited to the followings: 1) Hydrogen production: technologies, economic analysis, market potentials; 2) Hydrogen delivery: technologies, delivery efficiency, international delivery web; 3) Hydrogen storage: crystal structure, nanostructure; 4) Hydrogen fuel: physical properties, combustion characteristics; 5) Hydrogen engines: hydrogen internal combustion engines, hydrogen gas turbine, hydrogen propulsion; 6) Hydrogen fuel cells: fuel cells performances, electrochemical reaction, catalytical materials, life-cycle assessment; 7) Hydrogen safety: explosion characteristics, leakage potential, spontaneous ignition; 8) Hydrogen economy and energy policy: public attitude, dynamics of hydrogen economy development and energy policy towards Carbon Neutral Society; 9) Hydrogen ethics: environmental risk in hydrogen production etc.

### Guest Editors

Dr. Zuoyu Sun

Hydrogen Energy and Space Propulsion Laboratory (HESPL), School of Mechanical, Electronic and Control Engineering, Beijing Jiaotong University, Beijing 100044, China

Dr. Wang Mou

Research Institute for Eco-civilization, Chinese Academy of Social Sciences (CASS), Beijing 100000, China

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
