

## Special Issue

# Hydrological Response to Climate Change in Arid Land

### Message from the Guest Editors

Original research articles and reviews are welcome for this Special Issue. Research areas may include (but are not limited to) the following:

- Climatic and hydrological change in arid regions;
- Climate and hydrological modeling;
- Future climate change projection;
- Hydrological response to climate change;
- Long-term future water resource projection;
- Short-term flood prediction;
- Impact of water balance in arid basins and feedback of extreme climate on hydrological processes;
- Interaction between the atmospheric and hydrological processes;
- Hydrological effects of land use and land cover change;
- Regional water balance changes in response to climate change;
- Extreme events in arid regions.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
