

Special Issue

ICT Implementation toward Sustainable Education

Message from the Guest Editors

When addressing sustainable education, we refer to the change in the educational culture, which develops and embodies the theory and practice of sustainability in a critically aware manner. This refers to a transformative paradigm that values, sustains and realizes human potential, thereby attaining and sustaining “social, economic and ecological well being, recognizing that they must be part of the same dynamic” (Sterling, 2001). For this Special Issue, we welcome scholarly papers that advance our understanding of how ICT and digital media altogether can be implemented in order to promote sustainable education in schools, higher education institutions, informal education or any other educational context, as well as how sustainable education is supported by ICT/digital media. We encourage submissions that address, but are not limited to, the following topics: Broader Concerns Related to Sustainable Education Sustainable Education and Organizational Change Curricular Aspects of ICT-Based Sustainable development Motivation to Implement ICT for Sustainable Education ICT-Based Collaborations for Sustainable Education Sustainable Educational Outcomes

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
