## ICT and Sustainable Education

### Message from the Guest Editor

We welcome research fields such as innovative proposals for pedagogical practices; use of ICTs for inclusive education; development of the digital competences required in the present-day sustainable framework amongst students and teachers alike; links between the adoption of digital technology in the classroom and its social and environmental benefits; new lines for formal, non-formal, and informal training processes structured around u-, b-, and e-learning; attention to lifelong learning as a training model in the information society; big data analysis to enhance educational quality; studies on ICT-related educational policy and organization; socio-educational and psycho-educational aspects associated with digital technology; and any other topic where ICTs relate to the power of education to transform and encourage society to move towards a new paradigm focused on sustainable development of our planet.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
