

Special Issue

Impactful Innovation for Environmental and Social Sustainability

Message from the Guest Editor

The purpose of the issue is to find out more about the diverse approaches to innovation that aim to arrive at sustainable outcomes that contribute to society. The studies invited to this Special Issue should have a focus on the coming together of scientific and technical expertise on the one hand and social and societal needs on the other. This issue will supplement knowledge that relates to technical disciplines only, e.g., technical research to make batteries more efficient, to collaborative projects in which knowledge from technical disciplines is synthesised with knowledge from sociology, cognitive sciences and business and management sciences and built upon through creative, often co-creative, actions. We are interested in innovation that comes out of academic research, from small start-up companies and from larger organisations, in the public or private domain. The Special Issue aims at frameworks that support interdisciplinary collaboration.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
