

Special Issue

Industrial Upgrading and Regional Development in Global Low-Carbon Transformation

Message from the Guest Editors

Since the industrial revolution, demand for natural resources, e.g., land, water, and energy, has been sharply increasing to meet the needs of a rising global population and economic development. This Special Issue corroborates this approach by debating the importance of energy transition, financial and trade globalization, and regional industrial sustainable development.

- Industrial development path under environment-friendly conditions
- Green economic modeling and mining involving green growth
- Reconstruction of global value chain system and green productivity
- Embodied carbon and green trade in global value chain
- Green one belt, one road, and foreign investment development
- Energy transition industrial dynamics observed around the world
- Mechanism and test of green innovation in realizing carbon neutralization
- Resource utilization efficiency in the low-carbon transformation context
- Combining the experience of green and low-carbon transformation in various countries

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
