Special Issue

Information Systems for Sustainable Development

Message from the Guest Editors

In the last decade, emerging technologies, such as Cloud Computing, Big Data Analytics, the Internet of Things, Blockchain, and Artificial Intelligence, have dramatically updated the traditional information management landscape. However, very few studies have explored the implication of organizational IS initiatives in the context of the latest technological innovation and development from the sustainability perspective and how they can help organizations go green, such as to facilitate green innovation and undertake environmental and social responsibility. Against this backdrop, this Special Issue aims to understand the adoption, development, implementation, and impact of IS initiatives in the sustainable development of organizations to fulfill the mission of sustainability in a broader context.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
