

Special Issue

Earth Observation, Citizen Observation, and Geospatial Technologies for Achieving and Monitoring the Sustainable Development Goals (SDGs)

Message from the Guest Editor

The main objective of this Special Issue is gather research articles that can stimulate our efforts to develop state-of-the-art and cutting-edge approaches for achievement of the SDGs as well as monitoring their implementation. The Special Issue calls for original research contributions on topics including, but not limited, to:

- Contribution of earth observation and citizen observations of SDGs;
- Geospatial technologies, participatory approaches, and cloud-based services in supporting SDGs;
- Open data and citizen science in service of the SDGs;
- Impacts of climate change on SDGs implementation and achievement;
- Artificial intelligence and computational approaches for the SDGs;
- Data quality and uncertainty associated with measuring SDG indicators;
- Visualization of the SDG indicators across space and time.

Please indicate which SDG goal is addressed by your study by including it in the title or abstract of your submission.

Guest Editor

Prof. Dr. Jamal Jokar Arsanjani

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
