

Special Issue

Innovation in the SMEs

Message from the Guest Editors

This Special Issue focuses on the collaborative activities of SMEs that allow, ignite, or support product/service and process innovations. Both product/service and process innovations are mostly based on technology development, integration, and implementation, but the role played by social science knowledge cannot be neglected in marketing and organizational innovations. The topics for this call for papers include but are not limited to the following:

- technology acquisition
- networking and competition in innovation activities
- open innovation
- absorptive capacity management
- innovation for sustainability
- SME–university collaboration
- coopetition for innovation

Although these topics are not exclusive to SMEs, the proposed papers must be focused on SMEs or include at least a comparison of SMEs with large companies. Quantitative as well as qualitative empirical studies are welcome, as are theoretical and applied papers.

Guest Editors

Prof. Dr. Marta Peris-Ortiz

Prof. Dr. Jaime A. Gómez

Dr. Sofía Estellés-Miguel

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
