

Special Issue

Innovation and Entrepreneurship for Well-Being and Sustainability

Message from the Guest Editors

The aim of this Special Issue is to grasp the complexity and the intersection between sustainable innovation and sustainable entrepreneurship and strengthen and integrate the debate on these topics. In this respect, the Special Issue welcomes submissions covering these topics using multiple theoretical frameworks and methodological approaches that investigate actors, processes, and outcomes. More specifically, we encourage submissions:

- from across different disciplinary domains studying the relationship between entrepreneurship, innovation, and well-being or sustainability;
- conceptualizing innovative sustainability and well-being solutions via theoretical development and synthesis;
- providing fresh empirical insights into and/or thorough reviews of existing bodies of knowledge and/or theoretical developments on the topic; and
- studying phenomena at individual, group, organizational, and/or institutional levels of analysis.

Guest Editors

Prof. Dr. Olimpia Meglio

Department of Law, Economics, Management and Quantitative Methods, University of Sannio, 82100 Benevento, Italy

Dr. Nadia Di Paola

Department of Economics, Management, Institutions, University of Naples Federico II, 80126 Naples, Italy

Deadline for manuscript submissions

closed (30 April 2021)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
