# **Special Issue**

# Innovation and Entrepreneurship for Well-Being and Sustainability

### Message from the Guest Editors

The aim of this Special Issue is to grasp the complexity and the intersection between sustainable innovation and sustainable entrepreneurship and strengthen and integrate the debate on these topics. In this respect, the Special Issue welcomes submissions covering these topics using multiple theoretical frameworks and methodological approaches that investigate actors, processes, and outcomes. More specifically, we encourage submissions:

- from across different disciplinary domains studying the relationship between entrepreneurship, innovation, and well-being or sustainability;
- conceptualizing innovative sustainability and wellbeing solutions via theoretical development and synthesis;
- providing fresh empirical insights into and/or thorough reviews of existing bodies of knowledge and/or theoretical developments on the topic; and
- studying phenomena at individual, group, organizational, and/or institutional levels of analysis.
