

## Special Issue

# In Times of Crisis: Sustainable Innovation and Performance Management in the SMEs

### Message from the Guest Editors

In times of crisis and fundamentally due to COVID-19, small and medium-sized enterprises (SMEs) have been affected by this economic and social pandemic. Research papers should address the multifaceted topics around sustainable innovation and performance management, such as (1) entrepreneurship, (2) performance, (3) green innovation, (4) regional competitiveness, (5) partnerships, and (6) business resilience, among others. These topics should include definitions of the concepts of entrepreneurship, sustainable innovation, and performance management as well as the identification of factors affecting these types of phenomena. These surveys should identify situations in which managers/owners of SMEs have adapted their businesses to respond to the disruption caused by COVID-19. Papers selected for this Special Issue will be subject to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, developments, and applications. Pro.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
