

Special Issue

Sustainable Business: Innovation, Projects and Networks

Message from the Guest Editors

We invite you to participate in this Special Issue entitled “Sustainable Business: Innovation, Projects and Networks”. The pursuit of sustainable business is pushing firms to undertake innovative activities. This development requires, on the one hand, the exploration of new products and markets, and on the other hand the adoption of new organizational configurations and mechanisms. Therefore, sustainable development is acting as a key driver for change in business and this represents a new challenge for firms of different sizes and sectors, both with private or public ownership. In this Special Issue, original research articles—based on both qualitative and quantitative methodologies—and reviews are welcome. Research areas may include, but are not limited to, the following:

- Innovation processes leading to sustainability;
- Organizational change and sustainable practices;
- Design and management of sustainability-oriented projects;
- Role of innovation networks in promoting sustainable businesses;
- Role of digitalization in sustainability;

...

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
