

Special Issue

Sustainability and Innovation in an Era of Global Change

Message from the Guest Editors

Currently, climate change and environmental degradation represent an existential threat to the world, and a transition into a greener, more sustainable, economy is urgently needed. This transition requires action from all actors and within all sectors of the economy. A further societal challenge is that of ensuring that this transition is just and inclusive for all. To address this area of research, the proposed Special Issue calls for papers that present work on topics including, but not limited to, the following: 1. Sustainability and the COVID-19 pandemic; 2. Sustainability, incentives, and impacts; 3. Climate change policy, economics, and finance; 4. Energy transition and the future of mobility; 5. Industry transition and decarbonization; 6. Green innovation, land use, and agriculture; 7. Affordable clean energy, sustainable water management, and poverty; 8. Green agenda and circular economy; 9. Youth and sustainability: bridging sustainability priorities for early career professionals; 10. Advancing gender equality in green innovation and sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
