

Special Issue

Innovation and Technology Management and Sustainability

Message from the Guest Editors

We invite you to contribute to this Special Issue titled “Innovation and Technology Management and Sustainability”. Technological innovation and sustainability are becoming more and more intertwined. Indeed, new, innovative technologies can provide a relevant contribution to the reduction of environmental burden and/or the improvement of social conditions, while fostering economic growth. However, there are gaps in the extant literature regarding, on the one hand, what drives the development of “sustainable” technological innovations and what fosters their development, and, on the other hand, what drives the adoption of “sustainable” technological innovations by organizations, what fosters their implementation, and what are the subsequent effects on performance (economic, environmental, and social). The objective of this Special Issue is to invite novel research to fill these gaps. We welcome theoretical, empirical, conceptual, and experimental studies that offer fresh and critical insights. About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
