

Special Issue

Integrated Reporting and Corporate Sustainability

Message from the Guest Editor

Integrated reporting represents the most prominent innovation in the field of corporate reporting. Fostered by the work of the International Integrated Reporting Council (IIRC), a number of organizations around the world have started to engage with integrated reporting, merging financial and non-financial information with the aim to promote a more cohesive approach to corporate disclosure (Rinaldi et al., 2018; Caglio et al., 2020). Given this background, we are pleased to announce a Special Issue of *Sustainability* with the theme of integrated reporting and corporate sustainability. The Special Issue is open to both conceptual studies and empirical analysis based on qualitative as well as quantitative methodological approaches. For further reading, please visit the [Special Issue website](#).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
