

Special Issue

The Internet of Things in the Cultural Heritage Sector

Message from the Guest Editor

This special issue offers an opportunity to discuss the ways in which IoT and cultural heritage can interact and the impact that each field can have on the other, whether from a technological, heritage, business, artistic or other perspective. We welcome submissions (from any domain) that focus on the potential offered by IoT in the cultural heritage sector. Keywords

- Internet of Things
- Cultural Heritage
- Smart Systems
- Personalisation
- Visitor Experience
- Digital Heritage

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits
