

Special Issue

Knowledge Management and Digital Transformation in the Sharing Economy

Message from the Guest Editors

The goal of this Special Issue of *Sustainability* is to build a comprehensive body of knowledge regarding the complexity. This Special Issue calls for papers that address state-of-the-art KM practices in the sharing economy and digital transformations (DTs) in firms. The emphasis of this Special Issue is on how both individual and organizational knowledge can be incorporated into new emerging. This Special Issue call for papers involving various types of research and practical papers using scientific theories, methods, and research contexts to contribute to KM research communities or practitioners. Submissions focusing on the interactions of technical, behavioral, organizational, and societal aspects of KM are welcomed. We also welcome a variety of methodological papers using qualitative methods, experimental design, modeling, empirical research, qualitative study, or mixed methodological approaches with both qualitative and quantitative methods. Further, regarding the unit of analysis, national-, organizational-, inter-organizational-, social-, and team-level studies are welcomed. Case studies relevant to the real world are warmly encouraged.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
