

Special Issue

Land-Use Competition

Message from the Guest Editors

In view of the competing demands on land to adequately feed people, sustain biodiversity and ecosystem services, and mitigate climate change, there is a clear need for a systematic basis for allocating land use with respect to economic, social, and environmental objectives. The journal *Sustainability* is hosting a Special Issue on “Land-Use Competition”. Studies are welcome that formulate an integrated environmental and economic assessment of the global consequences of land use strategies for food, feed, fuel, timber and carbon sink, consisting of novel operational approaches that propose resolving the associated methodological issues. Life Cycle Assessment (LCA) and/or (parallel) economic-equilibrium modelling studies are of particular interest, as are consequential approaches for considering indirect effects when assessing land use strategies, or any other approach for estimating indirect land use change.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
