

Special Issue

Sustainability of Arid Lands in Southern Peru

Message from the Guest Editors

The southern region of Peru has been affected by climate change, which has caused the reduction of glaciers, changes in temperatures, extreme rainfall events, droughts, and a decrease in surface and groundwater levels. Likewise, the area has been affected by anthropic activities (mining, agriculture, etc.), which, associated with a lack of environmental regulations, have caused water scarcity, as well as water, soil and air pollution in the region. The topics that will be considered in this Special Issue are:

- Contamination and remediation of water, soil and/or air;
- Territorial management and modelling;
- Environmental policies and standards;
- Socio-environmental conflicts;
- Climate change processes and adaptation;
- Reuse, recycling, and waste reduction;
- Sustainability in the use of natural resources.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
