

Special Issue

Education for Sustainable Lifestyles

Message from the Guest Editor

This Special Issue seeks to examine education for sustainable lifestyles, the values upon which it is based, the objectives that drive it, and the competencies it attempts to foster. By reviewing the historical background of education for sustainable lifestyles, and the content, methodologies and assessment models most commonly used, a clearer picture of the scope and impact of education for sustainable lifestyles can be ascertained. There are numerous themes that deserve special attention such as: the role of families in education for sustainable living, the responsibilities of businesses and advertisers, technology's influence, and the validity of alternative economic systems. Vital questions also need to be addressed such as: to what extent should education for sustainable lifestyles challenge the status quo; and how does education for sustainable lifestyles highlight the importance of equity and justice for people all around the globe? This Special Issue welcomes papers from both academicians and practitioners.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
